Independent Verification Solutions
SSN | Tax Return | Employment | Deposit | Mortgage | Rent | Lease | Insurance

Verifications have been a mandatory function for financial institutions throughout the loan process for some time now. Independent verification addresses the growing need of lenders, servicers, and financial institutions to obtain an unbiased verification of information accurately, efficiently, and with variable expense.

Why Factual Data?
Experience
With over 25 years of experience analyzing consumer data, Factual Data has the expertise to help make qualified lending decisions that will transfer risk, enhance safety and soundness, and increase profitability.

Innovative Solutions
Factual Data is a third-party service provider that is financially non-interested in the transaction process, providing unbiased and manually verified information. By utilizing Factual Data to process your verifications, you will increase productivity, profitability and efficiently close better loans. Third Party Verifications improve the quality of loans processed and enhance the safety and soundness of the transaction in a cost-effective manner.

Independent Verification Solutions:
Social Security Number: Verify whether a name and Social Security Number combination match the data in Social Security Administration’s records.

Tax Return: Ensure that income-tax data submitted by your loan applicants are accurate and free from fraud.

Employment: Confirm a borrower’s employment status as well as length of employment, salary, and position.

Deposit: Review assets prior to approving a loan. Find out how long the account has been open, account standing, account balance and overdrafts.

Mortgage: Mortgage payment history, balance and monthly payment amount for an existing mortgage.

Rent: Assess the ability of the borrower to make a monthly mortgage payment based on the monthly rent payment history.

Lease: Determines the outstanding liability of a renter to a landlord.

Insurance: Determine coverage for an asset or act.
